The \$16,000 was a capital contribution for the future purchase of a truck and a new jetter. The village levied tax for this and contributed this to the utility.

2000 Analytical Review DWCCA-4060-PJL

Dear Ms. Mau:

The Public Service Commission staff is in the process of completing an analytical review of your utility's 2000 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that this review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. In our exchange of correspondence (see enclosure) regarding the \$11,659 reported in Account 183 in the 1999 annual report we recommended that the amount be written off to Account 435 in the 2000 annual report. We note that the same amount is still reported in Account 183 in the 2000 annual report. Please explain and confirm that those dollars will be written off to Account 435 in the 2001 annual report.
2. During our review, we noted that the utility did not report any return on net investment in meters charged to sewer department, (Account 474). If the sewer department uses the water meter to measure sewer volume, all the water meter costs must be shared, including depreciation, return on rate base, and taxes. Please review Section 4, Pages 10 and 11 of the Water Utility Reference Manual (enclosed) and properly allocate all water meter costs for 2001.
3. Please provide an explanation of the \$16,000 described as "CAPITAL PAID IN BY VILLAGE" reported as an addition to Account 200 on page F-12.
4. As directed in the head notes of the Water Operation & Maintenance Expenses schedule on page W-5, please provide an explanation of any expense account which changed by \$2,000 and 30% when compared to the previous year and follow this procedure in the future.
5. Please describe the source of the rebates reported in Account 421, Miscellaneous Nonoperating Income on page F-2.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. We prefer that you respond by e-mail if it is convenient for you to do so. My e-mail address is [leegep@psc.state.wi.us](mailto:leegep@psc.state.wi.us).

Subject: Village of Nelson

We have been asked by Penny Mau to respond to your letter dated July 11, 2001.

I apologize for not making the entry to remove the \$11,659 on the 2000 report we will make the entry in 2001.

The return on investments was recorded incorrectly in account 421. This was missed in my review.

The \$16,000 was a capital contribution for the future purchase of a truck and a new jetter. The village levied tax for this and contributed this to the utility.

The wages (600) decreased because the men work both for the utilities and the Town and wages are allocated based on how much time is spent in each location. It just happened that this was a light year. Outside services decreased (682) because there was not any testing done this year and last year \$5,115 dollars of testing was done.

The rebate was actually the return on meters.

If you have any further questions please let me know.

Jim

## WATER OPERATING SECTION FOOTNOTES

---

### Water Operation & Maintenance Expenses (Page W-05)

Per review:

The wages (600) decreased because the men work both for the utilities and the Town and wages are allocated based on how much time is spent in each location. It just happened that this was a light year. Outside services decreased (682) because there was not any testing done this year and last year \$5,115 dollars of testing was done.
